

Subtract a single digit from whole hundreds

Maths worksheets from mathsblog.co.uk

I like doing these. They are all taking away a single digit from a multiple of 100. Just put the correct numbers in the boxes.

1. $300 - 8 =$

2. $900 - 3 =$

3. $200 - 7 =$

4. $500 - 5 =$

5. $400 - 9 =$

6. $700 - 4 =$

7. $800 - 6 =$

8. $500 - 2 =$

On the next set of questions write down how you worked out the answer in your head.

9. $400 -$ $= 394$

Explain:

10. $600 -$ $= 592$

Explain:

11. $800 -$ $= 797$

Explain:

Subtract a single digit from whole hundreds
